

TOGETHER FOR A STRONGER FUTURE!

Disability Awareness Presentations

WE DON'T TEACH ABOUT PARTICULAR DISABILITIES

INSTEAD, WE EDUCATE AND CHANGE ATTITUDES!

BY CHANGING ATTITUDES EARLY, WE BUILD SAFER AND MORE INCLUSIVE CLASSROOMS FOR EVERYONE!

Benefits of our program

- Students are introduced to the idea that their peers with disabilities are like them and part of human diversity
- Students learn how they can become better citizens by accepting diversity and increasing their understanding and acceptance of the differences that exist among children
- Students will learn how to reduce bullying and create inclusive school communities by focusing on abilities
- Students have the opportunity to ask questions in their comfortable learning environment

Thank you for coming to my class. I really liked it. I learned that some people have different abilities but they can do some stuff that we can do. I feel happy.
-Naponi

Thank you for coming to our school and teaching us about disabilities. We learned that even though some people look different we are similar inside. The video showed us what to do and what not to do.
.-Kallie

They showed us a video about people with disabilities. I learned that people with disabilities don't need help with everything.
-Tiffany

In the presentation I learned a lot. One thing I learned was how hard it is to have a disability. When I tried to tie my shoe with one hand, I couldn't.
